

Why are we levying fines against broadcasters like Stern? I don't like the fact that my tax dollars are being used to go after people who some people find offensive. The Janet Jackson thing I understand, there was an elemnt of surpirse there, and it was something that was shocking because no one would expect it, or should. But Stern is known for his pervese angle on everything, and he is broadcast from stations that serve a more alternative market. Punishing him is ridiculous and I will lose faith in my country if it happens.
